## Textual information (11): Disclosure of goodwill [Text Block]

Goodwill

Goodwill was recognised on demerger of files and tools division of Raymond Limited into the Company in earlier years. The goodwill is allocated to the single CGU in which the Company operates i.e., tools and hardware.

The carrying amount of goodwill is as follows:

| Particulars | As at March 31, 2023 | As at March 31, 2022 |
|---|---|---|
| Goodwill | 79.41 | 79.41 |
| Total | 79.41 | 79.41 |

The Company has performed an impairment assessment for year ended March 31, 2023 and March 31, 2022 respectively, and considering profits earned by CGU being significantly higher than carrying amount of goodwill , no impairment on goodwill has been recognised.

## Footnotes

(A)

Write-down of inventories are accounted, considering the nature of inventory, ageing, liquidation plan and net realisable value and in case of reversal of write-down are mainly on account of commodity price movement (steel) and changes in market demand pattern due to changes in market dynamics. Reversal of write-down of inventories amounted to Rs. 320.00 lakhs for the year ended 31st March, 2023 (Reversal of Write-down of Rs.465.98 lakhs for the year ended 31st March, 2022). These write- downs or reversal thereof were recognised as expenses / reduction of expenses and included in 'Raw material consumed', 'changes in value of inventories of finished goods, stock- in -trade and work -in-progress' and 'consumption of stores and spares' in the standalone Statement of Profit and Loss.

(ii) The Supreme Court of India, through a ruling in February 2019, provided guidelines for interpreting the scope of compensation on which the organisation and its employees are to contribute towards Provident Fund. There is significant uncertainty and ambiguity in interpreting and giving effect to the guidelines of Supreme Court. The Company believes that there will be no significant impact on its contributions to Provident Fund due to the Supreme Court Order. The Company will evaluate its position and act as clarity emerges on impact of the ruling.

The amount shown in respect of above items represent the best possible estimates arrived at on basis of available information. The uncertainties are dependent on the outcome of different legal process. The timing of cash flows will be determinable only on receipt of judgement / decisions pending with various forums / authorities.

The Company does not expect any reimbursements in respect of the above contingent liabilities.

# [610100] Notes - List of accounting policies

Unless otherwise specified, all monetary values are in Lakhs of INR

| Period | FY 2023 |
|---|---|
| Disclosure of significant accounting policies [Text Block] | Textual Information (15) |

## Textual information (15): Disclosure of significant accounting policies [Text Block]

1A. Corporate Information

JK Files & Engineering Limited (formerly known as JK Files (India) Limited)(“the Company”) is a public Company limited by shares and domiciled in India. The Company deals in tools and hardware products. The Company have manufacturing facilities at Chiplun, Ratnagiri and Vapi. The Registered office of the Company is situated at New Hind House, Narottam Morarjee Marg, Ballard Estate, Mumbai - 400 001.

These Standalone Financial Statements were authorised for issue in accordance with a resolution of the Board of Directors on May 02, 2023.

1B. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of the standalone financial statements. These policies have been consistently applied to all the years presented.

(a) Basis of preparation

(i) Compliance with Ind AS

The Standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015, as ammended] and other relevant provisions of the Act.

(ii) Historical cost convention

The standalone financial statements have been prepared on a historical cost basis, except for the following:

1) certain financial assets and liabilities (including derivative instruments) is measured at fair value;

2) assets held for sale – measured at lower of book value and fair value less cost to sell.

3) defined benefit plans – plan assets measured at fair value

(iii) New and amended standards adopted by the Company

The Ministry of Corporate Affairs had vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amended certain accounting standards, and are effective 1 April 2022. These amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(iv) New and amended standards issued but not effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the ‘Rules’) which amends certain accounting standards, and are effective 1 April 2023.

The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the Company’s accounting policy already complies with the now mandatory treatment.

(v) Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle (twelve months) and other criteria set out in the Schedule III (Division II) to the Act.

(vi) Rounding of amounts

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III (Division II), unless otherwise stated.

(b) Use of estimates and judgments

The estimates and judgments used in the preparation of the standalone financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the year in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(c) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income / other expenses. On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation on Factory Buildings and Plant and Equipment is provided on a Straight Line Method and in case of other assets on Written Down Value Method, net of their residual values, over the estimated useful lives of assets. Leasehold improvements are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II of the Act, and management believe that useful lives of assets are same as those prescribed in schedule II of the Act, except for plant and machinery, useful life for which based on an independent technical evaluation has been estimated as 24 years from the date of acquisition (on a single shift basis), which is different from that prescribed in Schedule II of the Act.

The estimated useful lives of the property, plant and equipment are:

| Class of Asset | Useful life |
|---|---|
| Buildings | 60 years |
| Plant and machinery | 24 years |
| Furniture and fixtures | 10 years |
| Vehicles | 8 years |
| Office equipment | 5 years |
| Computers | 3 years |

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

(d) Intangible assets

Goodwill generated as part of business combination are not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

Computer software

Computer software are stated at cost, less accumulated amortisation and impairments, if any.

Trademarks

Trademarks acquired separately are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Amortisation method

The Company amortizes intangible assets with a future useful life using the straight-line method over following period:

| Class of Asset | Useful life |
|---|---|
| Computer Software | 3 years |
| Trademark | 10 years |

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income / other expenses.

(e) Lease

As a lessee

Leases are recognised as a right-of-use asset (“ROU”) and a corresponding lease liability at the date at which leased asset is available for use by the Company for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term leases and leases of low value assets, the Company recognises the lease payments as an expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs and restoration costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments which includes principal and finance cost component. Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.
To determine the incremental borrowing rate, the Company's where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each year.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the Statement of Profit and Loss.

(f) Cash and Cash Equivalents

For the purpose of presentation in the Standalone Statement of Cash Flows, cash and cash equivalents includes cash on hand, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Inventories

Inventories of raw materials, stock in trade, stores and spares, work-in-progress, and finished goods are stated at cost or net realisable value, whichever is lower. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Cost formula used is 'Weighted Average cost'. Slow-moving, non-moving and defective inventories are identified and wherever necessary, provision is made for such inventories considering various factors such as likely usage, obsolescence etc. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Investment in subsidiaries

Investment in subsidiaries is recognised at cost as per Ind AS -27.

(i) Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflects the Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance

(j) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(k) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

* those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and

* those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Recognition

Financial assets are initially recognised when the Company becomes party to the contractual provisions of the instrument.

(iii) Measurement

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company measures its debt instruments in following categories:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included within other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income / other expenses. Impairment losses are presented as separate line item in the statement of profit and loss.

- Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net with other income / other expenses in the year in which it arises.

(iv) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. Note 37 details how the Company determines whether there has been a significant increase in credit risk.

(v) Derecognition of financial assets

A financial asset is derecognised only when:

• the Company has transferred the rights to receive cash flows from the financial asset or

• retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(vi) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Dividends

Dividends are received from financial assets at fair value through profit or loss and at FVOCI. Dividends are recognised as other income in profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of the investment.

(l) Contributed Equity

Equity shares are classified as equity. Convertible instruments such as preference shares that will be or are expected to be settled in the Company's own equity instruments are classified as equity if they are expected to be settled into a fixed number of equity shares.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(m) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(n) Derivative financial instruments

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at FVPL. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

(o) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.
(p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the year of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the year of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income / other expenses.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12

months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(q) Borrowing costs

Interest and other borrowing costs attributable to the acquisition, construction or production of a qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other interest and borrowing costs are charged to profit or loss.

(r) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management’s best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense in profit or loss.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Material contingent liabilities are disclosed in standalone financial statements unless the possibility of an outflow of economic resources is remote. Contingent assets are not recognized in standalone financial statements unless it is virtually certain that the future event will confirm the asset’s existence and the asset will be realised.

(s) Revenue from contracts with customers

(i) Sale of Goods

Sales are recognised when the control of the goods has been transferred to customer which is generally on delivery of goods and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Delivery occurs when the products have been shipped to the specific location, risk of obsolescence and loss have been transfer to customer and the Company has objective evidence that all criteria for the acceptance have been satisfied.

The goods are sold with retrospective volume discounts based on aggregate sales over a 12 months period. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognised to the extent that is highly probable that a significant reversal will not occur.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) Sales of Services

Revenue from sale of services is recognised in the accounting year in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided.

Cash received before the goods and services are delivered is recognised as a contract liability.

(iii) Financing Components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(t) Employee benefits

(i) Short-term Employee Benefits:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognised in respect of employees’ services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit

obligations in the balance sheet.

(ii) Defined Contribution Plans

The Company pays provident fund contributions etc. to publicly administered provident and other funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are incurred.

(iii) Post-employment obligations

Defined Benefit Plans

The liability or asset recognised in the balance sheet in respect of defined gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by actuary applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments as calculated by actuary are recognised immediately in the Profit or Loss as past service cost.

(iv) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the year in which the employees render the related service. An actuarial valuation is obtained at the end of reporting period. The present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(v) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the Company recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.
(u) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates (‘the functional currency’). The Standalone Financial Statements are presented in Indian rupee (INR), which is JK Files & Engineering Limited's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the respective transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in profit or loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in profit or loss.

(v) Income tax

The income tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable income tax rate

adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the country where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the standalone financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related defer income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiary, where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit or Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively

(w) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company

- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(x) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director .

The board of directors of Company has appointed a Managing Director who assesses the financial performance and position of the Company, and makes strategic decisions.

(y) Impairment of non-financial assets:

Goodwill is not subject to amortisation and is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset’s carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset’s fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

(z) Non- current assets (or disposal groups) held for sale :

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (or disposal groups) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

(aa) Exceptional Item:

Exceptional item is an item of income or expense within the Statement of Profit and Loss, which is of such size, nature and incidence that its disclosure is relevant to explain the performance of the Company for the year. The nature and amount of such item is disclosed separately in the Statement of Profit and Loss.

(ab) Government Grants:

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

(ac) Business Combinations:

The acquisition method of accounting is used to account for all business combinations (other than common control business combinations), regardless of whether equity instruments or other assets are acquired. The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. The excess of the consideration transferred over the fair value of the net identifiable assets acquired is recorded as goodwill. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Business combinations arising from transfers of interests in entities that are under the common control are accounted for using the pooling of interest method. The difference between any consideration transferred and the aggregate historical carrying values of assets and liabilities of the acquired entity are recognised in shareholder’s equity.

1(C) Critical estimates and judgements

The preparation of Standalone Financial Statements requires the use of accounting estimates which by definition will seldom equal the actual results.
This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line item in the Standalone Financial statements .

The areas involving critical estimates are:

-Estimation of Defined benefit obligation - Measurement of defined benefit obligation and related plans require numerous assumptions and estimates that can have a significant impact on the recognized costs and obligation, such as future salary level, discount rate, attrition rate and mortality. (Refer Note 29)

-Inventory write down - Inventory write downs are assessed based on slow-moving, non-moving and defective inventories considering various factors such as likely usage, obsolescence etc. (Refer Note 7)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

1A. Corporate Information

JK Files & Engineering Limited (formerly known as JK Files (India) Limited)(“the Company”) is a public Company limited by shares and domiciled in India. The Company deals in tools and hardware products. The Company have manufacturing facilities at Chiplun, Ratnagiri and Vapi. The Registered office of the Company is situated at New Hind House, Narottam Morarjee Marg, Ballard Estate, Mumbai - 400 001.

These Standalone Financial Statements were authorised for issue in accordance with a resolution of the Board of Directors on May 02, 2023.

1B. Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of the standalone financial statements. These policies have been consistently applied to all the years presented.

(a) Basis of preparation

(i) Compliance with Ind AS

The Standalone financial statements comply in all material aspects with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015, as ammended] and other relevant provisions of the Act.

(ii) Historical cost convention

The standalone financial statements have been prepared on a historical cost basis, except for the following:

1) certain financial assets and liabilities (including derivative instruments) is measured at fair value;

2) assets held for sale – measured at lower of book value and fair value less cost to sell.

3) defined benefit plans – plan assets measured at fair value

(iii) New and amended standards adopted by the Company

The Ministry of Corporate Affairs had vide notification dated 23 March 2022 notified Companies (Indian Accounting Standards) Amendment Rules, 2022 which amended certain accounting standards, and are effective 1 April 2022. These amendments did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

(iv) New and amended standards issued but not effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the ‘Rules’) which amends certain accounting standards, and are effective 1 April 2023.

The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable

future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the Company's accounting policy already complies with the now mandatory treatment.

(v) Current non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (twelve months) and other criteria set out in the Schedule III (Division II) to the Act.

(vi) Rounding of amounts

All amounts disclosed in the standalone financial statements and notes have been rounded off to the nearest lakhs as per the requirement of Schedule III (Division II), unless otherwise stated.

(b) Use of estimates and judgments

The estimates and judgments used in the preparation of the standalone financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the year in which the results are known/materialised.

The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

(c) Property, plant and equipment

Freehold land is carried at historical cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to the Statement of Profit and Loss during the reporting period in which they are incurred. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income / other expenses. On transition to Ind AS, the company has elected to continue with the carrying value of all of its property, plant and equipment measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives and residual value

Depreciation on Factory Buildings and Plant and Equipment is provided on a Straight Line Method and in case of other assets on Written Down Value Method, net of their residual values, over the estimated useful lives of assets. Leasehold improvements are depreciated on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II of the Act, and management believe that useful lives of assets are same as those prescribed in schedule II of the Act, except for plant and machinery, useful life for which based on an independent technical evaluation has been estimated as 24 years from the date of acquisition (on a single shift basis), which is different from that prescribed in Schedule II of the Act.

The estimated useful lives of the property, plant and equipment are:

| Class of Asset | Useful life |
|---|---|
| Buildings | 60 years |
| Plant and machinery | 24 years |
| Furniture and fixtures | 10 years |
| Vehicles | 8 years |
| Office equipment | 5 years |
| Computers | 3 years |

The residual values are not more than 5% of the original cost of the asset. The assets residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

(d) Intangible assets

Goodwill generated as part of business combination are not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or groups of units are identified at the lowest level at which goodwill is monitored for internal management purposes, which in our case are the operating segments.

Computer software

Computer software are stated at cost, less accumulated amortisation and impairments, if any.

Trademarks

Trademarks acquired separately are shown at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation and impairment losses.

Amortisation method

The Company amortizes intangible assets with a future useful life using the straight-line method over following period:

| Class of Asset | Useful life |
|---|---|
| Computer Software | 3 years |
| Trademark | 10 years |

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income / other expenses.

(e) Lease

As a lessee

Leases are recognised as a right-of-use asset (“ROU”) and a corresponding lease liability at the date at which leased asset is available for use by the Company for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term leases and leases of low value assets, the Company recognises the lease payments as an expense on a straight-line basis over the term of the lease.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs and restoration costs. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments which includes principal and finance cost component. Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.
To determine the incremental borrowing rate, the Company's where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each year.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the Statement of Profit and Loss.

(f) Cash and Cash Equivalents

For the purpose of presentation in the Standalone Statement of Cash Flows, cash and cash equivalents includes cash on hand, other short-term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(g) Inventories

Inventories of raw materials, stock in trade, stores and spares, work-in-progress, and finished goods are stated at cost or net realisable value, whichever is lower. Cost of raw materials and traded goods comprises cost of purchases. Cost of work-in-progress and finished goods comprises

direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. Cost of inventories also include all other costs incurred in bringing the inventories to their present location and condition. Costs of purchased inventory are determined after deducting rebates and discounts. Cost formula used is 'Weighted Average cost'. Slow-moving, non-moving and defective inventories are identified and wherever necessary, provision is made for such inventories considering various factors such as likely usage, obsolescence etc. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

(h) Investment in subsidiaries

Investment in subsidiaries is recognised at cost as per Ind AS -27.

(i) Trade Receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business and reflects the Company's unconditional right to consideration (that is, payment is due only on the passage of time). Trade receivables are recognised initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance

(j) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

(k) Investments and other financial assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

* those to be measured subsequently at fair value (either through other comprehensive income, or through the Statement of Profit and Loss), and

* those measured at amortised cost.

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

(ii) Recognition

Financial assets are initially recognised when the Company becomes party to the contractual provisions of the instrument.

(iii) Measurement

At initial recognition, the Company measures a financial asset (excluding trade receivables which do not contain a significant financing component) at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Debt instruments:

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company measures its debt instruments in following categories:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included within other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income / other expenses. Impairment losses are presented as separate line item in the statement of profit and loss.

- Fair value through profit and loss: Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net with other income / other expenses in the year in which it arises.

(iv) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The

impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables only, the Company applies the simplified approach required by Ind AS 109 Financial Instruments, which requires expected lifetime losses to be recognised from initial recognition of the receivables. Note 37 details how the Company determines whether there has been a significant increase in credit risk.

(v) Derecognition of financial assets

A financial asset is derecognised only when:

• the Company has transferred the rights to receive cash flows from the financial asset or

• retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(vi) Income recognition

Interest income

Interest income from debt instruments is recognised using the effective interest rate method to the gross carrying amount of a financial asset except for financial assets that subsequently become credit-impaired. For credit-impaired financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

Dividends

Dividends are received from financial assets at fair value through profit or loss and at FVOCI. Dividends are recognised as other income in profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of the investment.

(l) Contributed Equity

Equity shares are classified as equity. Convertible instruments such as preference shares that will be or are expected to be settled in the Company’s own equity instruments are classified as equity if they are expected to be settled into a fixed number of equity shares.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

(m) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

(n) Derivative financial instruments

Derivatives are only used for economic hedging purposes and not as speculative investments. However, where derivatives do not meet the hedge accounting criteria, they are classified as ‘held for trading’ for accounting purposes and are accounted for at FVPL. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

(o) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.
(p) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the year of the

borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the year of the facility to which it relates.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income / other expenses.

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(q) Borrowing costs

Interest and other borrowing costs attributable to the acquisition, construction or production of a qualifying assets are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Other interest and borrowing costs are charged to profit or loss.

(r) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management’s best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense in profit or loss.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Material contingent liabilities are disclosed in standalone financial statements unless the possibility of an outflow of economic resources is remote. Contingent assets are not recognized in standalone financial statements unless it is virtually certain that the future event will confirm the asset’s existence and the asset will be realised.

(s) Revenue from contracts with customers

(i) Sale of Goods

Sales are recognised when the control of the goods has been transferred to customer which is generally on delivery of goods and there is no unfulfilled obligation that could affect the customer's acceptance of the product. Delivery occurs when the products have been shipped to the specific location, risk of obsolescence and loss have been transfer to customer and the Company has objective evidence that all criteria for the acceptance have been satisfied.

The goods are sold with retrospective volume discounts based on aggregate sales over a 12 months period. Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognised to the extent that is highly probable that a significant reversal will not occur.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

(ii) Sales of Services

Revenue from sale of services is recognised in the accounting year in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided.

Cash received before the goods and services are delivered is recognised as a contract liability.

(iii) Financing Components

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer

and payment by the customer exceeds one year. As a consequence, the Company does not adjust any of the transaction prices for the time value of money.

(t) Employee benefits

(i) Short-term Employee Benefits:

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Defined Contribution Plans

The Company pays provident fund contributions etc. to publicly administered provident and other funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are incurred.

(iii) Post-employment obligations

Defined Benefit Plans

The liability or asset recognised in the balance sheet in respect of defined gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in INR is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by actuary applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the Statement of Profit and Loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments as calculated by actuary are recognised immediately in the Profit or Loss as past service cost.

(iv) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the year in which the employees render the related service. An actuarial valuation is obtained at the end of reporting period. The present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(v) Termination benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date, or when an employee accepts voluntary redundancy in exchange for these benefits. The Company recognises termination benefits at the earlier of the following dates: (a) when the Company can no longer withdraw the offer of those benefits; and (b) when the Company recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of terminations benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to present value.

(u) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The Standalone Financial Statements are presented in Indian rupee (INR), which is JK Files & Engineering Limited's functional and presentation currency.

(ii) Transactions and balances

Transactions in foreign currencies are recognised at the prevailing exchange rates on the respective transaction dates. Realised gains and losses on settlement of foreign currency transactions are recognised in profit or loss.

Monetary foreign currency assets and liabilities at the year-end are translated at the year-end exchange rates and the resultant exchange differences are recognised in profit or loss.

(v) Income tax

The income tax expense or credit for the year is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the country where the Company operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amount in the standalone financial statement. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are excepted to apply when the related defer income tax assets is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiary, where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are off set where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Current and deferred tax is recognised in the Statement of Profit or Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively

(w) Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company

- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and

- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(x) Segment Reporting:

Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director .

The board of directors of Company has appointed a Managing Director who assesses the financial performance and position of the Company, and makes strategic decisions.

(y) Impairment of non-financial assets:

Goodwill is not subject to amortisation and is tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

An impairment loss is recognised for any initial or subsequent write-down of the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset is recognised at the date of de-recognition.

(z) Non- current assets (or disposal groups) held for sale :

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (or disposal groups) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the balance sheet. The liabilities of a disposal group classified as held for sale are presented separately from other liabilities in the balance sheet.

(aa) Exceptional Item:

Exceptional item is an item of income or expense within the Statement of Profit and Loss, which is of such size, nature and incidence that its disclosure is relevant to explain the performance of the Company for the year. The nature and amount of such item is disclosed separately in the Statement of Profit and Loss.

(ab) Government Grants:

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Company will comply with all attached conditions.

Government grants relating to income are deferred and recognised in profit or loss over the period necessary to match them with the costs that they are intended to compensate and presented within other income.

(ac) Business Combinations:

The acquisition method of accounting is used to account for all business combinations (other than common control business combinations), regardless of whether equity instruments or other assets are acquired. The acquisition date is the date on which control is transferred to the acquirer. Judgement is applied in determining the acquisition date and determining whether control is transferred from one party to another. The excess of the consideration transferred over the fair value of the net identifiable assets acquired is recorded as goodwill. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses.

Business combinations arising from transfers of interests in entities that are under the common control are accounted for using the pooling of interest method. The difference between any consideration transferred and the aggregate historical carrying values of assets and liabilities of the acquired entity are recognised in shareholder's equity.

1(C) Critical estimates and judgements

The preparation of Standalone Financial Statements requires the use of accounting estimates which by definition will seldom equal the actual results.
This note provides an overview of the areas that involved a higher degree of judgement or complexity, and items which are more likely to be materially adjusted due to estimates and assumptions turning out to be different than those originally assessed. Detailed information about each of these estimates and judgements is included in relevant notes together with information about the basis of calculation for each affected line

item in the Standalone Financial statements .

The areas involving critical estimates are:

-Estimation of Defined benefit obligation - Measurement of defined benefit obligation and related plans require numerous assumptions and estimates that can have a significant impact on the recognized costs and obligation, such as future salary level, discount rate, attrition rate and mortality. (Refer Note 29)

-Inventory write down - Inventory write downs are assessed based on slow-moving, non-moving and defective inventories considering various factors such as likely usage, obsolescence etc. (Refer Note 7)

Estimates and judgements are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

## Textual information (21): Disclosure of nature and extent of risks arising from financial instruments [Text Block]

Financial risk management objectives

The Company's activities expose it to credit risk, liquidity risk and market risk. The Company's financial risk management process seeks to enable the early identification, evaluation and effective management of key risks facing the business. The Company financial risk management is set by the Working Board comprising of CEO, CFO and various head of departments. The policies and procedures issued by appropriate authorities; process of regular internal reviews/audits to set appropriate risk limits and controls are monitored by higher authorities and approved by senior management. This note explains the sources of risk which the Company is exposed to and how the Company manages the risk and the related impact in the standalone financial statements.

A) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market prices comprise three types of risk: interest rate risk, foreign currency risk and price risk. The Company has in place appropriate risk management policies to limit the impact of these risks on its financial performance. The Company ensures optimization of cash through fund

planning and robust cash management practices.

a) Interest rate risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. In order to optimize the Company's position with regards to interest income and interest expenses and to manage the interest rate risk, the Company performs a comprehensive corporate interest rate risk management by balancing the proportion of fixed rate and floating rate financial instruments in its total portfolio.

For floating rate liabilities, the analysis is prepared assuming the amount of the liability outstanding at the end of the reporting period was outstanding for the whole year.

a) Exposure to interest rate risk

| Particulars | As at March 31, 2023 | As at March 31, 2022 |
|---|---|---|
| Total borrowings | 735.26 | 840.54 |
| % of Borrowings bearing variable rate of interest | 100% | 100% |

b) Interest rate sensitivity

A change of 50 bps in interest rates would have following Impact on profit before tax

| | Year ended 31st March, 2023 | Year ended 31st March, 2022 |
|---|---|---|
| 50 bp increase would decrease the profit before tax by | 3.68 | 4.20 |
| 50 bp decrease would Increase the profit before tax by | (3.68) | (4.20) |

b) Market risk - Foreign Currency risk

The Company operates internationally and portion of the business is transacted in several currencies and consequently the Company is exposed to foreign exchange risk through its sales and services in overseas and purchases from overseas suppliers in various foreign currencies. Foreign currency exchange rate exposure is partly balanced by Forward Contracts, purchasing of goods, commodities and services in the respective currencies.

(c) Price Risk

Exposure

Security price risk is the risk that the fair value of a financial instrument will fluctuate due to change in market traded prices. The Company invests its surplus funds primarily in liquid schemes of mutual funds (debt instruments) which are categorised as low risk products from liquidity and interest rate perspectives. The carrying amount of the Company's investments are designated as at fair value through profit or loss at the end of the reporting period.

Sensitivity

The sensitivity analysis below is presented with reference to changes in NAV of these securities:-

| | Year ended 31st March, 2023 | Year ended 31st March, 2022 |
|---|---|---|
| NAV - Increases by 1% * | 35.27 | - |
| NAV - Decreases by 1% * | (35.27) | - |

* Holding all other variables constant

B) Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Company.

The Company is exposed to credit risk from its operating activities (primarily trade receivables), security deposit and from its investing activities, including deposits with banks. Management has a credit policy in place and the exposure to credit risk is monitored on an ongoing basis.

Cash and cash equivalent and other bank balances

Credit risk related to cash and cash equivalents is managed by accepting highly rated banks. Management does not expect any losses from non-performance by these counterparties.

Other financial assets measured at amortized cost

Other financial assets measured at amortized cost includes bank deposits and other receivables. Credit risk related to these assets are managed by monitoring the recoverability of such amounts continuously, while at the same time the internal control system in place ensures that amounts are within defined limits. The expected credit loss on these financial instruments is expected to be insignificant.

Trade and other receivables

The Company has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days for which the receivables are due and the expected loss rates have been computed based on ageing

C) Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time, or at a reasonable price. The Company's treasury department is responsible for liquidity, funding as well as settlement management. In addition, processes and policies related to such risk are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts on the basis of expected cash flows.

Financial instruments by category

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

1. Fair value of trade receivables, cash and cash equivalent, other current financial asset (other than derivative), trade payable and other current financial liabilities approximate their carrying amounts largely due to short term maturities of these instruments.

2. Financial instruments with fixed and variable interest rates are evaluated by the Company based on parameters such as interest rates and individual credit worthiness of the counterparty. Based on this evaluation, allowances are taken to account for expected losses of these receivables. Accordingly, fair value of such instruments is not materially different from their carrying amounts.

3. For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Valuation Technique used to determine fair value

- the use of NAV declared by the fund for investment in mutual funds

- the fair value of forward exchange contracts is determined using forward exchange rates at the reporting date.

## Textual information (31): Disclosure of employee benefits [Text Block]

Post retirement benefit plans

i) Defined benefit plans - Gratuity

The Company provides for gratuity for employees in India as per the Payment of Gratuity Act, 1972. Employees who are in continuous service for a period of 5 years are eligible for gratuity. The amount of gratuity payable on retirement/termination is the employee's last drawn basic salary per month computed proportionately for 15 days salary multiplied by the number of years of services, subject to ceiling of Rs. 20 lakhs . The gratuity plan is funded plan and the Company makes contributions to recognised fund in India.

The amount recognised in the balance sheet and the movements in the net defined benefit obligation over the year are as below:

A. Balance Sheet

| Gain/(loss) arising from experience adjustments | 13.01 | (148.62) |
| Net impact on the Other Comprehensive Income before tax | 53.33 | (181.84) |

E. Assets

| | As at 31st March, 2023 | As at 31st March, 2022 |
|---|---|---|
| Insurer managed fund | 2,092.07 | 2,248.85 |
| Total | 2,092.07 | 2,248.85 |

F. Significant Estimate: Actuarial assumptions

With the objective of presenting the plan assets and plan liabilities of the defined benefits plans and post retirement benefits at their fair value on the balance sheet, assumptions under Ind AS 19 are set by reference to market conditions at the valuation date.

The significant actuarial assumptions were as follows:

| | As at 31st March, 2023 | As at 31st March, 2022 |
|---|---|---|
| Financial Assumptions | | |
| Discount rate | 7.44% | 6.98% |
| Salary Escalation Rate | 7.50% | 7.50% |
| Atrrition rate | 2.00% | 2.00% |
| Return on plan assets | 7.44% | 6.98% |

Demographic Assumptions

Mortality in Service : Indian Assured Lives Mortality 2012-14 (Urban)

G. Sensitivity

The sensitivity of the overall plan liabilities to changes in the weighted key assumptions are:

| | | As at 31st March, 2023 | | As at 31st March, 2022 | |
|---|---|---|---|---|---|
| | Change in assumption | Increase in assumption having an impact on present value of plan liability | Decrease in assumption having an impact on present value of plan liability | Increase in assumption having an impact on present value of plan liability | Decrease in assumption having an impact on present value of plan liability |
| Discount rate | 1% | (111.30) | 124.94 | (143.71) | 161.47 |
| Salary Escalation Rate | 1% | 120.71 | (110.99) | 156.56 | (142.64) |
| Attrition rate | 1% | (0.98) | 1.03 | (4.86) | 5.34 |

The sensitivity analyses above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period and may not be representative of the actual change. It is based on a change in the key assumption while holding all other assumptions constant. When calculating the sensitivity to the assumption, the same method used to calculate the liability recognised in the balance sheet has been applied. The methods and types of assumptions used in preparing the sensitivity analysis did not change compared with the previous year.

H. The defined benefit obligations shall mature after year end 31st March, 2023 as follows:

| | Defined benefit obligation | |
|---|---|---|
| Gratuity : | As at 31st March, 2023 | As at 31st March, 2022 |
| 1st year | 205.21 | 258.47 |
| 2nd year | 194.43 | 148.27 |
| 3rd year | 255.17 | 256.94 |
| 4th year | 336.34 | 273.09 |
| 5th year | 259.36 | 334.14 |
| Thereafter | 2415.77 | 3022.99 |

Risk Exposure

Interest rate risk: A fall in the discount rate which is linked to the G. Sec. Rate will increase the present value of the liability requiring higher provision. A fall in the discount rate generally increases the mark to market value of the assets depending on the duration of asset.

Salary Risk: The present value of the defined benefit plan liability is calculated by reference to the future salaries of members. As such, an increase in the salary of the members more than assumed level will increase the plan's liability.

Asset volatility Risk:

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds. If the return on plan asset is below this rate, it will create a plan deficit. These are subject to interest rate risk and the fund manages interest rate risk to an acceptable level.

Mortality risk: Since the benefits under the plan is not payable for life time and payable till retirement age only, plan does not have any longevity risk.

Concentration Risk: Plan is having a concentration risk as all the assets are invested with the insurance Company and a default will wipe out all the assets. Although probability of this is very less as insurance companies have to follow regulatory guidelines.

(ii) Defined contribution plans :

The Company also has certain defined contribution plans. Contributions are made to provident fund, employe's state insurance scheme etc in India for employees . The contributions are made to registered fund administered by the government. The obligation of the Company is limited to the amount contributed and it has no further contractual nor any constructive obligation. The expense recognised during the year towards defined contribution plan is Rs 313.61 Lakhs. (31st March, 2022 Rs. 335.08 lakhs)

(iii) Compensated absences:

The leave obligations cover the Company’s liability for sick and earned leave.

The amount of the provision of Rs 360.87 lakhs for 31st March, 2023 (Rs 406.79 lakhs for 31st March, 2022) is presented as current, since the Company does not have an unconditional right to defer settlement for any of these obligations.

## Footnotes

(A)

(a)(A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of 2 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 2(a) and 2(b) to the standalone financial statements, are held in the name of the Company, except for the following:

| Description of property | Gross carrying value (Amount in Lakhs) | Held in the name of | Whether promoter, director or their relative or employee | Period held - indicate range, where appropriate | Reason for not being held in the name of the Company |
|---|---|---|---|---|---|
| Leasehold Land – Chiplun | 154.79 | Raymond Woolen Mills Limited (Now known as Raymond Limited) | Promoter | 14 years | Due to pending registration formalities with MIDC |

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.

(e) Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016)(formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its standalone financial statements does not arise.

(B)

(a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the unaudited books of account (Also refer Note 14 to the standalone financial statements).

(C)

(a) During the year, the Company has made investments in six other parties, provided guarantee to one financial institution. The Company has not, granted any secured / unsecured loans or advances in nature of loans or provided any security to any company, firm, Limited Liability Partnerships or any other party. Accordingly, the reporting under Clause 3(iii)(c), (iii)(d), (iii)(e) and (iii)(f) are not applicable to the Company.

The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such guarantees of parties other than subsidiaries, joint ventures and associates are as per the table given below. Further, the Company has not provided any guarantee to subsidiaries.

| Particulars | Guarantees (Amount in Rs. lakhs) |
|---|---|
| Aggregate amount provided during the year | 860.69 |
| Balance outstanding as a balance sheet date in respect of the above case | 235.27 |

(Also refer Note 14 to the standalone financial statements)

(b) In respect of the aforesaid investments and guarantees, the terms and conditions under which such investments were made and guarantees provided are not prejudicial to the Company’s interest.

(D)

(a) According to the records of the Company examined by us and the information and explanation given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender during the year.

(b) According to the information and explanations given to us and on the basis of our audit procedures, we report that the Company has not been declared Wilful Defaulter by any bank or financial institution or government or any government authority.

(c) According to the records of the Company examined by us and the information and explanations given to us, the Company has not obtained any term loans.

(d) According to the information and explanations given to us, and the procedures performed by us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long-term purposes by the Company.

(e) According to the information and explanations given to us and on an overall examination of the standalone financial statements of the Company, we report that the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries. Further, the Company did not have any associates or joint ventures during the year.

(f) According to the information and explanations given to us and procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its subsidiaries. Further, the Company did not have any joint ventures or associate companies during the year.

(E)

(a) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we have neither come across any instance of material fraud by the Company or on the Company, noticed or reported during the year, nor have we been informed of any such case by the Management.

(b) During the course of our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, a report under Section 143(12) of the Act, in Form ADT-4, as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 was not required to be filed with the Central Government. Accordingly, the reporting under clause 3(xi)(b) of the Order is not applicable to the Company.

(F)

(a) The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, the reporting under clause 3(xvi)(a) of the Order is not applicable to the Company.

(b) The Company has not conducted non-banking financial / housing finance activities during the year. Accordingly, the reporting under clause 3(xvi)(b) of the Order is not applicable to the Company.

(c) The Company is not a Core Investment Company (CIC) as defined in the regulations made by the Reserve Bank of India. Accordingly, the reporting under clause 3(xvi)(c) of the Order is not applicable to the Company.

(d) Based on the information and explanations provided by the management of the Company, the Group does not have any CICs, which are part of the Group. We have not, however, separately evaluated whether the information provided by the management is accurate and complete. Accordingly, the reporting under clause 3(xvi)(d) of the Order is not applicable to the Company.

## Textual information (45): Disclosure in auditor’s report explanatory [Text Block]

Independent Auditor’s Report

To the Members of JK Files & Engineering Limited [Formerly known as JK Files (India) Limited]

Report on the Audit of the Standalone Financial Statements

Opinion

1. We have audited the accompanying standalone financial statements of JK Files & Engineering Limited [Formerly known as JK Files (India) Limited] (“the Company”), which comprise the Balance Sheet as at March 31, 2023, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (“the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year then ended.

Basis for Opinion

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the “Auditor’s Responsibilities for the Audit of the Standalone Financial Statements” section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

4. The Company’s Board of Directors is responsible for the other information. The other information comprises the information included in the Directors’ report, but does not include the standalone financial statements and our auditor’s report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the standalone financial statements

5. The Company’s Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

6. In preparing the standalone financial statements, management is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company’s financial reporting process.

Auditor’s responsibilities for the audit of the standalone financial statements

7. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

8. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company’s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor’s report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor’s report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

9. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

10. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on other legal and regulatory requirements

11. As required by the Companies (Auditor’s Report) Order, 2020 (“the Order”), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the Annexure B a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

12. As required by Section 143(3) of the Act, we report that:

(a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

(b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.

(c) The Balance Sheet, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.

(d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act.

(e) On the basis of the written representations received from the directors as on April 01, 2023, taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2023, from being appointed as a director in terms of Section 164(2) of the Act.

(f) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in “Annexure A”.

(g) With respect to the other matters to be included in the Auditor’s Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:

i. The Company has disclosed the impact of pending litigations on its financial position in its financial statements – Refer Note 34 to the standalone financial statements;

ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, on derivative contracts. Refer Note 16 to the standalone financial statements. Further, the Company has long-term contracts as at March 31, 2023 for which there were no material foreseeable losses.

iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company during the year ended March 31, 2023.

iv.(a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 48 to the standalone financial statements);

(b) The management has represented that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries (Refer Note 48 to the standalone financial statements); and

(c) Based on such audit procedures that we considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.

v. The Company has not declared or paid any dividend during the year.

vi. As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 (as amended), which provides for books of account to have the feature of audit trail, edit log and related matters in the accounting software used by the Company, is applicable to the Company only with effect from financial year beginning April 1, 2023, the reporting under clause (g) of Rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), is currently not applicable.

13. The Company has paid/ provided for managerial remuneration in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.

Annexure A to Independent Auditor’s Report

Referred to in paragraph 12(f) of the Independent Auditor’s Report of even date to the members of JK Files & Engineering Limited [Formerly known as JK Files (India) Limited] on the standalone financial statements for the year ended March 31, 2023

Report on the Internal Financial Controls with reference to Standalone Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. We have audited the internal financial controls with reference to standalone financial statements of JK Files & Engineering Limited [Formerly known as JK Files (India) Limited] (“the Company”) as of March 31, 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

2. The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (“the Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Annexure B to Independent Auditors’ Report

Referred to in paragraph 11 of the Independent Auditors’ Report of even date to the members of JK Files & Engineering Limited [Formerly known as JK Files (India) Limited] on the standalone financial statements as of and for the year ended March 31, 2023

i. (a)(A) The Company is maintaining proper records showing full particulars, including quantitative details and situation, of Property, Plant and Equipment.

(B) The Company is maintaining proper records showing full particulars of Intangible Assets.

(b) The Property, Plant and Equipment are physically verified by the Management according to a phased programme designed to cover all the items over a period of 2 years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the programme, a portion of the Property, Plant and Equipment has been physically verified by the Management during the year and no material discrepancies have been noticed on such verification.

(c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), as disclosed in Note 2(a) and 2(b) to the standalone financial statements, are held in the name of the Company, except for the following:

| Description of property | Gross carrying value (Amount in Lakhs) | Held in the name of | Whether promoter, director or their relative or employee | Period held - indicate range, where appropriate | Reason for not being held in the name of the Company |
|---|---|---|---|---|---|
| Leasehold Land – Chiplun | 154.79 | Raymond Woolen Mills Limited (Now known as Raymond Limited) | Promoter | 14 years | Due to pending registration formalities with MIDC |

(d) The Company has not revalued its Property, Plant and Equipment (including Right of Use assets) or intangible assets or both during the year. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment (including Right of Use assets) or intangible assets does not arise.

(e) Based on the information and explanations furnished to us, no proceedings have been initiated on or are pending against the Company for holding benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended in 2016)(formerly the Benami Transactions (Prohibition) Act, 1988 (45 of 1988)) and Rules made thereunder, and therefore the question of our commenting on whether the Company has appropriately disclosed the details in its standalone financial statements does not arise.

ii. (a) The physical verification of inventory excluding stocks with third parties has been conducted at reasonable intervals by the Management during the year and, in our opinion, the coverage and procedure of such verification by Management is appropriate. In respect of inventory lying with third parties, these have substantially been confirmed by them. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

(b) During the year, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, from banks on the basis of security of current assets. The Company has filed quarterly returns or statements with such banks, which are in agreement with the unaudited books of account (Also refer Note 14 to the standalone financial statements).

iii. (a) During the year, the Company has made investments in six other parties, provided guarantee to one financial institution. The Company has not, granted any secured / unsecured loans or advances in nature of loans or provided any security to any company, firm, Limited Liability Partnerships or any other party. Accordingly, the reporting under Clause 3(iii)(c), (iii)(d), (iii)(e) and (iii)(f) are not applicable to the Company.

The aggregate amount during the year, and balance outstanding at the balance sheet date with respect to such guarantees of parties other than subsidiaries, joint ventures and associates are as per the table given below. Further, the Company has not provided any guarantee to subsidiaries.

| Particulars | Guarantees (Amount in Rs. lakhs) |
|---|---|
| Aggregate amount provided during the year | 860.69 |
| Balance outstanding as a balance sheet date in respect of the above case | 235.27 |

(Also refer Note 14 to the standalone financial statements)

(b) In respect of the aforesaid investments and guarantees, the terms and conditions under which such investments were made and guarantees provided are not prejudicial to the Company’s interest.

iv. In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of the investments made and guarantees provided. The Company has not granted any loans or provided any security to the parties covered under Sections 185 and 186.

v. The Company has not accepted any deposits or amounts which are deemed to be deposits within the meaning of Sections 73, 74, 75 and 76 of the Act and the Rules framed there under to the extent notified.

vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section

148(1) of the Act in respect of its products. We have broadly reviewed the same and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.

vii.
